

# Did It Really Happen Here?

They said it couldn't happen  
Don't give in to your fears  
But now nobody's laughing  
There's far too many tears

As everything unraveled  
The options disappeared  
They said it couldn't happen  
Did it really happen here?

I put it on the record  
I need to get this down  
For if it happens someday  
I might not be around

And as that day approaches  
The scene becomes so clear  
We'll wring our hands and wonder  
How did we let it happen here?  
Now we stand around and wonder  
Did it really happen here?
